Introduction 1

PART ONE Orientation to knowledge management implementation 5

01 What is knowledge management? 7

Introduction 7
Definition 7
The six main components of knowledge management 9
Translating KM into business terms 10
The supply chain analogy 12
The essential elements of knowledge management 13
Knowledge management as orchestration 17
Summary 18

02 The stages of KM implementation 19

The different implementation approaches 19
Our recommended approach 19
The parallel opportunity-led programme 25
Escalating levels of management decision 25
Summary 26

03 Barriers and pitfalls 27

Survey evidence 27
Lessons from the field 30
Summary 38

PART TWO Preparation and resources 39

04 Knowledge management strategy 41

Deciding the strategic principles 41
Identifying the business drivers 42

Defining the knowledge management vision	43
Agreeing the knowledge management scope	43
Defining the strategic knowledge areas	44
Assessing the current state of knowledge management	44
Creating a draft knowledge management framework	45
Deciding how to handle change management	45
Creating a business case	46
Summary	47

05 The role, skills and characteristics of the knowledge management leader 48

The role of the knowledge management leader	48
Should the knowledge management leader be an internal or external appointment?	50
The most important characteristic for an external appointment	51
What competencies does the knowledge management leader need?	51
The personality trap	52
A metaphor	53
Summary	54

06 The KM team members 55

How big should your KM team be?	55
What skillsets will you need on your team?	56
Attitude and values	58
Team roles	59
Summary	60

07 The role of senior management 61

The role of the sponsor	61
The risks to effective sponsorship	62
The knowledge management steering team	63
Working with the other senior managers	64
Summary	65

08 Budget and timescale 66

The need for a budget	66
How big will the budget need to be?	67
Assigning your budget among the four KM enablers	67
Benchmarking your budget	68
How long will it take to implement knowledge management?	69
Beware the self-funding trap	71
Summary	72

09 Aims and objectives for the KM implementation programme 73

- Benefits mapping 73
- The interim objectives 77
- Making the objectives smart 78
- Impact metrics for knowledge management 78
- Setting the value targets and estimating ROI 82
- Dealing with imposed targets 83
- What if you can't measure value in monetary terms? 83
- Not all measures should be targets 84
- Summary 84

10 Finding partners to help you 85

- Who should be responsible for KM? 85
- KM as partnering 88
- Initiating a partnership 90
- Transitioning the partnerships 91
- Identifying non-obvious partners 92
- Partnering with external companies 94
- Summary 95

PART THREE Assessment and planning 97

11 Conducting the knowledge assets audit 99

- What is a knowledge assets audit? 99
- How does the audit help a KM implementation? 100
- What are we auditing? 101
- What are the steps in a knowledge assets audit? 103
- Analysing the results of the audit 104
- Summary 107

12 The knowledge management framework 108

- What is a management framework? 108
- Why we need a framework for KM 110
- A template for your KM framework 111
- Summary 113

13 The knowledge discussion elements of the KM framework 114

- Dialogue as the preferred form of discussion 114
- Roles for knowledge discussion 115

Processes for knowledge discussion	118
Technologies for knowledge discussion	121
Governance for knowledge discussion	122
Summary	123

14 The knowledge capture and documentation elements of the KM framework 124

The difference between documented knowledge and information	124
Roles for knowledge documentation	125
Processes for knowledge documentation	127
Technology for knowledge documentation	131
Governance for knowledge documentation	133
Summary	133

15 The knowledge synthesis elements of the KM framework 134

What is knowledge synthesis?	134
What does synthesized knowledge look like?	135
Roles for knowledge synthesis	136
Processes for knowledge synthesis	138
Technologies for knowledge synthesis	139
Governance for knowledge synthesis	141
Summary	141

16 The knowledge finding and re-use elements of the KM framework 142

The challenges of knowledge re-use	142
Incentivizing knowledge seeking	143
The importance of making knowledge findable and accessible	144
Roles for knowledge finding and re-use	144
Processes for knowledge finding and re-use	146
Technologies for knowledge finding and re-use	147
Governance for knowledge finding and re-use	149
Summary	150

17 Knowledge organization 151

Grounding knowledge organization in the business drivers	151
The three components of knowledge organization	152
Taking an evidence-based approach to knowledge organization	155
Using the knowledge assets audit to focus on what counts	156
Testing and validating your knowledge organization system	157
Summary	158

- 18 Influencing the stakeholders** 159
- The steps of the buy-in ladder 159
 - The knowledge manager as salesperson 161
 - Segmenting your audience 162
 - Influencing tactics 163
 - When to use the influencing techniques 166
 - Summary 168
- 19 Culture, communications and change** 169
- KM as an agent of culture change 169
 - Mapping the current culture 170
 - Understanding the cultural drivers 173
 - Communication and change 175
 - The communication plan 176
 - Summary 177
- 20 Preparing the KM implementation plan** 178
- How to create the implementation plan 178
 - Potential elements of the KM plan 182
 - Summary 187
- PART FOUR** The implementation activity 189
-
- 21 Building the KM champion network** 191
- What is a KM champion? 191
 - What KM champions do 192
 - How to identify potential KM champions 193
 - Maintaining the motivation of the KM champions 195
 - Supporting the KM champions 197
 - Summary 200
- 22 Trials and pilots** 201
- Proof of concept trials 201
 - Where to look for quick wins 203
 - Selecting KM pilot projects 204
 - The ‘minimum viable KM framework’ 205
 - Delivering KM pilots 207
 - Reaching the organizational decision point 209
 - Summary 210
- 23 Roll-out, embedding and governance** 211
- What does embedding mean? 211
 - Examples of embedded KM 212

Finalizing the KM framework	214
The governance elements of the KM framework	215
The KM policy	215
KM roll-out	217
Celebrating the successes	219
Tracking the roll-out phase	220
Summary	221

24 Setting up the KM metrics and reporting system 222

The different kinds of metrics and their purposes	222
Examples of KM metrics	225
KM performance management	227
KM metrics reporting	229
KM metrics as a learning opportunity	230
Summary	230

25 Dealing with bumps in the road 232

Dealing with common objections	232
Challenge scenario 1: over-enthusiastic support	234
Challenge scenario 2: death of a thousand cuts	235
Challenge scenario 3: perpetual reset mode	237
Challenge scenario 4: the show stopper	238
Summary	239

26 When implementation is over 240

The decision to close the implementation programme	241
The role of the KM team after implementation	242
Knowledge management refresh and update	243
Summary	245

PART FIVE Case histories 247

27 Implementing KM at Mars 249

Linda Davies

Know why you're doing what you're doing	249
Focus on critical activities that help deliver strategy	250
Plan the roll-out to build the KM story	251
Go where there is 'pull' and keep all activities relevant to the business and to associates	252
Measure the business impact of KM activities	252
Be consistent	253
Select the team members carefully	253
Build top-down support	254
Embed critical knowledge via existing business processes	255

When is it over? 255
Summary 255

28 KM implementation in a global oil and gas company 256

Dan Ranta

Connecting sharing to the business – a bold approach 257
The link between knowledge networks and business results 258
Connecting people and governance 258
Visible leadership led to knowledge network growth 259
Building sustainability 260
Discussions and lesson learning 260
Promoting re-use 261
Synthesis: closed discussions and an enterprise wiki 261
Measuring knowledge network activity 262
Summary 262

29 KM implementation at Huawei 263

Tan Xinde

The value of KM to Huawei 264
The start of Huawei's KM journey 265
Going from the HQ to the frontline 267
Explicit vs tacit knowledge management 268
The current state of KM in Huawei 269
Summary 270

30 KM implementation at the Singapore Youth Olympics 271

Doreen Tan

Facilitating the smooth flow and exchange of information 272
Cultivating a learn-as-you-go culture 273
Retaining and transferring Games know-how 275
Summary 276

31 Accelerated learning in a law firm 277

Jessica Magnusson

Knowledge and professional development in law firms 277
The timeframe 278
Approach 278
Summary 283

Summary 284

Glossary 285
