Preface xx

PART ONE Rethinking 1

01 Introduction 3

Learning from crises 3
Anthony's story 4
Derek's story 6
Combining our insights to reveal hidden truths 8
Why study crises? 8
Outsiders can see more clearly than insiders 9
What is in it for whom? 11

02 Reputation basics 13

What is a reputation? 14
How is a good reputation valuable? 16
The unrecognized role of heuristics 16
Systems One and Two 17
The value of a good reputation 19
Whose reputation is it anyway? 21
Questions to mull 22

03 How reputations are lost 25

Stakeholders in crises 26
Confidentiality evaporates in a crisis 27
Crises as a public stress-test of leaders 28
Crisis dynamics 28
The trigger 30

Stakeholders and media engage	30
The back story	30
Leaders are not necessarily trusted	33
As stories develop, reputations evolve	33
Questions to mull	34

04 What is reputational risk? 37

Cognitive biases and their consequences	38
How cognitive biases and heuristics lead us astray	38
A better definition of reputational risk	39
Follow those root causes	40
Latent weaknesses incubate slowly	41
Turner's innovative equation	43
Lessons from Three Mile Island	43
Complex systems fail in complex ways	44
'Normal' accidents	45
Overconfidence and optimism	47
The role of human error	48
The problem of systemic weakness	49
Enter the Swiss cheese model	49
Questions to mull	51

05 The hole in classical risk management 53

Where 'three lines of defence' fails	54
Normal human behaviour	55
The hole in classical risk management	56
The 'Swiss cheese' model has a hole!	59
Boards in the dark: unknown knowns and the risk glass ceiling	60
Unwanted incentives affect risk managers	63
Protecting chief risk officers	64
Questions to mull	65

- 06 Stakeholder behaviour 67**
- How does this work in practice? 68
 - Reputational capital and reputational equity 69
 - Unduly good reputations 70
 - Stakeholders – peacetime 70
 - Stakeholders in a crisis 71
 - Insiders are stakeholders too 71
 - Licence to operate 72
 - Stakeholder expectations 73
 - Antifragility 74
 - If stakeholders overestimate you 75
 - Stakeholders’ unreasonable expectations 76
 - Owners and their proxies 76
 - Regulators: stakeholders with multiple agendas 78
 - Questions to mull 79
- 07 Risks from failing to communicate and learn 81**
- Upward communication failures 81
 - Downward communication failures 86
 - Communication across the organization 86
 - Risk blindness 88
 - Failure to learn 90
 - Questions to mull 91
- 08 Character, culture and ethos 93**
- Character 93
 - Culture 95
 - Cultural leadership 96
 - Failure to embed the desired culture throughout the organization 98
 - Questions to mull 99
- 09 Incentives 101**
- Financial incentives: bonuses 101
 - Do large bonuses work? 102

- Penalties 106
- Non-financial incentives 106
- Questions to mull 108

- 10 Complexity 109**
 - Questions to mull 111

- 11 Board composition, skill, knowledge, experience and behaviour 113**
 - Insufficient understanding 113
 - Blindness from cultural maps, rules, taxonomies and social norms 115
 - Diversity and skewed boards 117
 - Biases, heuristics, board dynamics and challenge 119
 - Questions to mull 121

- 12 Risks from strategy and change 123**
 - Strategy development 123
 - Risks from large projects and change: the planning fallacy 124
 - Risks from inadequate crisis strategy, planning, practice and management 126
 - Questions to mull 128

- 13 Incubation and complacency 129**
 - Complacency 131
 - Hubris 134
 - Questions to mull 135

- 14 The special role – and risks – of leaders 137**
 - Risks from leaders 137
 - Leadership charisma and dominance 140
 - Who can risk-manage leaders? 141
 - Questions to mull 142

PART TWO Case studies 143

15 BP: Texas City explosion 145

- Main risk event 145
- Company involved 145
- Brief note on company 145
- Date of event 145
- Background to event 146
- Description of event 147
- Post-event response 147
- Findings of investigations 147
- Consequences of event 149
- Risk management lessons 150
- Questions to mull 152

16 BP: *Deepwater Horizon* 155

- Main risk event 155
- Company involved 155
- Brief note on company 155
- Date of event 155
- Background to event 155
- Description of event 156
- Post-event response 157
- Findings of investigations 159
- Consequences of event 160
- Risk management lessons 162
- Questions to mull 163

17 Tesco PLC 167

- Main risk event 167
- Company involved 167
- Brief note on company 167
- Date of event 167
- Background to event 168
- Description of event 168

Post-event response	170
Findings of investigations	170
Consequences of event	171
Risk management lessons	172
Questions to mull	174

18 American International Group (AIG) 177

Main risk event	177
Brief note on company	177
Date of event	178
Background to event	178
Description of event	180
Post-event response	181
Findings of investigations	182
Consequences of event	182
Risk management lessons	184
Questions to mull	186

19 EADS Airbus A380 191

Main risk event	191
Company involved	191
Brief note on company	191
Date of event	192
Background to event	192
Description of event	193
Post-event response	193
Consequences of event	194
Risk management lessons	195
Questions to mull	197

20 Libor: Barclays Bank PLC 201

Main risk event	201
Company involved	201
Brief note on company	201
Date of event	202

Background to event	202
Description of event	203
Post-event response	205
Findings of investigations	206
Consequences of event	208
Risk management lessons	209
Questions to mull	211

21 Volkswagen 215

Main risk event	215
Company involved	215
Brief note on company	215
Date of event	216
Background to event	216
Description of event	217
Post-event response	218
Consequences of event	222
Risk management lessons	224
Questions to mull	225

22 Mid Staffordshire NHS Foundation Trust (Stafford Hospital) 231

Main risk event	231
Brief note on company	231
Date of event	231
Background to event	232
Description of event	232
Post-event response	233
Findings of investigations	233
Consequences of event	236
Risk management lessons	237
Questions to mull	240

PART THREE Practicalities 243

23 The way forward 245

Introduction 245

Implementing a reputational risk management process 246

24 System basics – getting to ‘go’ 249

Process overview 249

Understanding the nature of reputation and
reputational risk 249

Value your reputation 252

Assign ownership of reputation 254

**25 Setting up the reputational risk management
system** 257

Leadership in risk management 259

Risk team skills 260

A reputation committee? 263

Giving the team sufficient authority 263

Dealing with risks from board level 263

**26 Operating the reputational risk management
system** 267

Setting risk appetite and tolerance 267

Identifying, analysing and evaluating reputational risks
and their roots 268

Analysing risks and impacts 269

Evaluating risks and impacts 286

Mitigating vulnerabilities 287

Reporting and monitoring 288
